I just put in the request. I may have it by tomorrow but sometimes it takes a few days.

-Jennifer

The 1st paragraph of the discussion in the attached paper by Buhler et al. 1977 talks about a study with chromium tissue residues. I do not have the From and Stokes paper, but have listed the reference below. Jenn Peterson was going to check to see if she could get a copy. I don't know the status of her search.

From, P. O. and R. M. Stokes (1962). "Assimilation and metabolism of chromium by trout." J. Water Pollut. Control Fed. 34:1151-1155.
